

## The Bridge Report

**Welcome:** A segment of [IBG's mission](#) is to mobilize Diaspora resources to engage services that support economic activity, increase knowledge and increase capital within our [Region of Focus \(ROF\)](#). With more resources under the bridge umbrella, opportunities are within reach, and participation in economic growth and development within our ROF is practical.

IBG's strategic contribution to economic growth and development in its ROF is outlined within its [business service platform](#): Contract Management Services; Facilitation of Procurement Initiatives; Project Implementation Services within productive sectors and the support of Small to Medium Sized Enterprises (SME) opportunities via the [Bridge Investment Development Program \(BID\)](#).

### Monthly Ground Report

Although energized by recent events and speckled with anticipated prosperity; the current business climate is still undergoing some stagnation due to capital and economic constraints. New and established businesses with no capital are finding it difficult sourcing funding due to constrained lending, reduction in trade, lack of demand for commodities and reduction in remittances. Despite this shadow of current global trends, Ghana commands an economic twist due to its ever growing business and investment opportunities, untapped resources, stable governance and strategic location; all of which are promised to overcome the under achievements of the economy.

Auxiliary services to the oil and gas industry are evident and within grasp; Construction is still and will continue to be a promising sub-sector; Goods and Services>>> [\[+\]](#)
